📍 Natun Bazaar, Dhaka

I am seeking a job that will allow me to apply my problem-solving skills, pick up new knowledge, and sharpen my attention to detail in order to improve my computer science abilities.

✏ PROJECTS

Restaurant Management System (PHP, MySQL, HTML, CSS, JavaScripit, JQuary, JSON)
- Course based project, CRUD operation, view products, PHP validation, Login & Logout.
  It will provide various advantages for customers like customers select their favorite food etc.

Online E-Commerce Website (HTML , CSS & JavaScript)
- Where customers can find products, browse offerings, and place purchases online.
  Product category, purchase orders, receiving lists, and payment receipts.

Online Education Platform (Laravel & React, MVC paradigm)
- Course based project, CRUD operation, Laravel validation, Login & Logout.
  Teachers can upload and teach educational videos, and students can access and watch these videos at their own pace.
